

**REMARKS**

After the foregoing amendment, claims 40-78, as amended, are pending in the application. Claims 44-50 have been allowed. Claims 40, 42, 51, 58, 61, 64, 68, 70, 73, 76, 77 and 78 have been amended to more particularly point out and distinctly claim the subject matter which Applicants regard as the invention. Claims 1-39 have been canceled. Applicants submit that no new matter has been added to the application by the Amendment.

**Telephone Interview**

The Examiner, in a telephone interview on May 24, 2005, indicated that the response filed on February 16, 2006 overcame the existing rejections, but that the independent claims would have to be amended with definitions of certain of the terms in order to make the claims allowable. Applicant's attorney of record subsequently submitted an amendment to claim 40 which was approved by the Examiner. By this amendment, Applicants are amending each of the independent claims similarly to the amendment to claim 40. Applicant thanks the Examiner for his assistance.

**Conclusion**

Insofar as the Examiner's objections and rejections have been fully addressed, the instant application, including claims 40-78, is in condition for allowance and Notice of Allowability of claims 40-78 is therefore earnestly solicited.

Respectfully submitted,

SHUO-YEN ROBERT LI ET AL.
